The expedition has been greeted to the shores of Hawaii by our own countrymen with true American hospitality. The English residents are more apprehensive of ill results from this accession, and that preparations were silently making at Honolulu, among a large class of foreign residents, to defend the existing government at all hazards. But defence of the nature contemplated will hardly be required, if our advices be correct. If, however, as we are also informed, a forcible attempt should be made against the government, the U. S. Commissioners will, in all probability, join with the authorities, and command the guns of the U. S. S.
